

Save Canada Post

Dear member of Parliament:

I want to let you know I am upset the Conservative government approved Canada Post's plan to end door-to-door mail delivery and drastically increase stamp prices.

This decision will have a serious impact on me, my family, friends and community. It will also hurt people with disabilities and seniors.

I believe Canada Post could preserve public postal service and improve its financial position by expanding parcel delivery and adding lucrative banking and financial services.

I value my public postal service. Tell Canada Post to scrap their plan. Please save Canada Post.

Sincerely,

(signature) _____
